

4 Courses

Introduction to Cognitive Psychology and Neuropsychology

The neuropsychology of decision making

The Psychology of Emotions: an introduction to embodied cognition

Learning and memory in the brain: a guide for teachers

Aug 29, 2026

Hamide Tuğçe Demirtaş

has successfully completed the online Specialization

The science of mind and decision making

This Specialization offers an introduction to key concepts in cognitive psychology and neuropsychology, including memory, attention, emotion, and decision-making. Learners will explore how brain functions relate to behaviour and how these insights can be applied in educational and real-world contexts. By the end, participants will be equipped to understand and support learning, emotional recognition, and decision processes.

Dr Stacey Bedwell, Dr
Giulia Mangiaracina, Ms
Ginny Smith

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
